By Your River, Gently Flowing, Illinois

Look, Listen and Smell

What can you see?
Look for the boats floating down the river.

What can you hear?
Listen for sounds of the owl hooting in the trees.

What can you smell?
Smell the different scents of the Illinois River Valley.

What do you smell near the river?

What Kind of Plant Will Grow?

Water Works

Water is VERY important.

We all need water to live. But there is only so much fresh water that we can drink.
That's why it is important for us to protect our water.

What are some things you can do at home to prevent water pollution?

Visit our online learning center for tips at www.illinoiswater.com

Who Pooped?

Wonders of Water Summer Camp

Goals

- Build relationships with community partners
- Have amazing, related, off-site experiences
- Make correlations with our existing museum exhibit
- Utilize museum classrooms for awesome hands-on activities to extend what we learned off-site, or to expand upon our exhibit
- Invite other community educators to come to our facility and talk to our camp/lead activities
- Admit that we are not always the experts

Community Partners

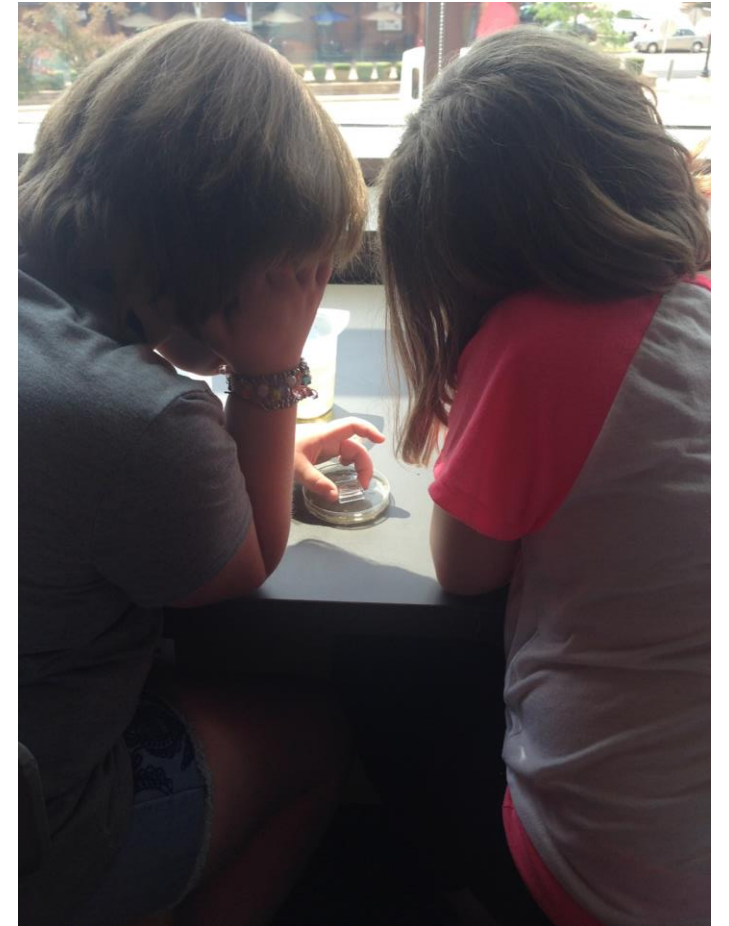

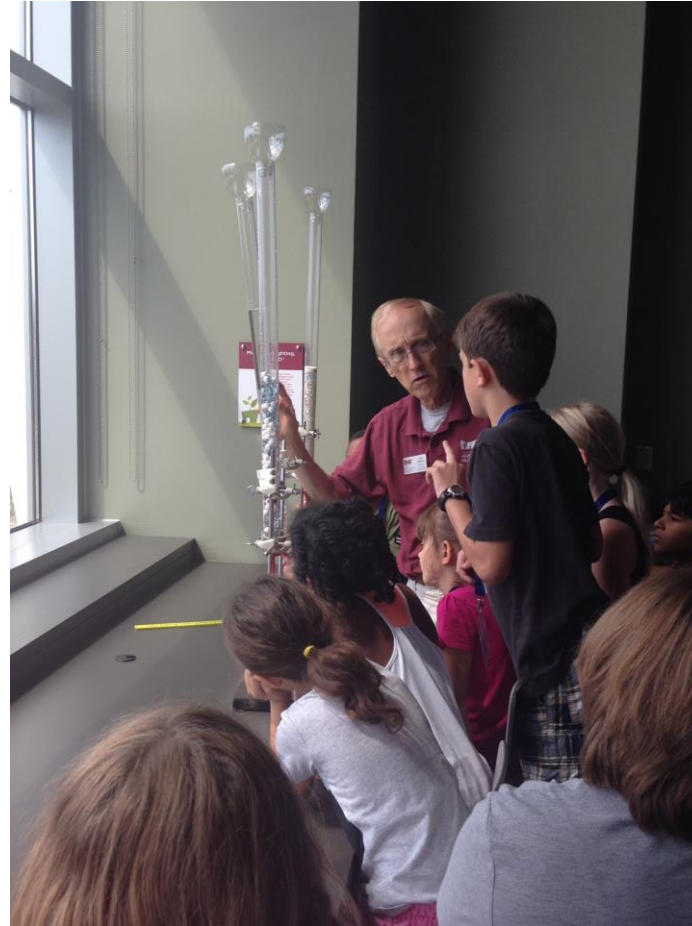

Peoria Riverfront Museum River Encounter

Peoria Riverfront Museum Stream Lab

Peoria Riverfront Museum Stream Lab

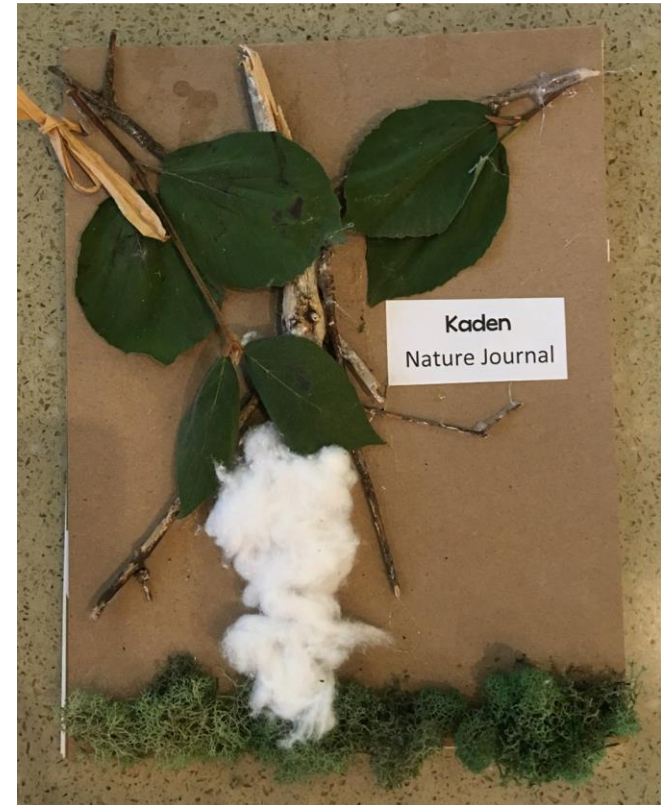

Forest Park Nature Center

Peoria Zoo

Luthy Botanical Garden

Camp Wakonda

Spirit of Peoria

Dickson Mounds

Glen Oak Park Lagoon

Illinois American Water Mobile Lab

Tips for getting started

- 1) Find a champion
- 2) Reserve a space
- 3) Communication Plan
- 4) Sponsorship - ask for support
- 5) Engage Parents
