Demographic Information - Optional

ASTC is committed to ensuring that our programs and activities are inclusive and represent the full diversity of our field. **The following questions are optional and will NOT be shared with**

proposal reviewers. They will be used by ASTC, in aggregate, to assess our own performance against our stated values.

These questions were built based upon recommended demographics questions, including the following resources:

- T. Fernandez, A. Goodwin, J. Doyle, D. Verdin, H. Boone, A. Kirn, L. Benson, and G. Potvin. 2016. More Comprehensive and Inclusive Approaches to Demographic Data Collection. *School of Engineering Education Graduate Student Series*. Paper 60.
- Harvard T.H. Chan School of Public Health Office of Regulatory Affairs and Research Compliance (ORARC). 2020. ORARC Tip Sheet: Inclusive Demographic Data Collection.
- Human Rights Campaign Foundation. 2020. LGBTQ Self-Identification in the Workplace.

As an organization headquartered in the United States, ASTC uses demographic categories drawn from U.S. policies and assessment criteria. As an organization with a global membership, we understand that not all of these categories are relevant outside of the United States, and we encourage respondents to use the self-description option to best describe their identities.

If you have any feedback about this form, please contact us at info@astc.org.

The following questions are optional and will NOT be shared with proposal reviewers. Responses are based on the proposal submitter (person filling out this online form), not the presenters.
