These questions were built based upon recommended demographics questions, including the following resources:

- T. Fernandez, A. Goodwin, J. Doyle, D. Verdin, H. Boone, A. Kirn, L. Benson, and G. Potvin. 2016. [More Comprehensive and Inclusive Approaches to Demographic Data Collection](#). *School of Engineering Education Graduate Student Series*. Paper 60.

As an organization headquartered in the United States, ASTC uses demographic categories drawn from U.S. policies and assessment criteria. As an organization with a global membership, we understand that not all of these categories are relevant outside of the United States, and we encourage respondents to use the self-description option to best describe their identities.

If you have any feedback about this form, please contact us at info@astc.org.

The following questions are optional and will NOT be shared with proposal reviewers. Responses are based on the proposal submitter (person filling out this online form), not the presenters.
